Battery Replacement Plan

Although batteries are considered a consumable item, you are entitled to replace batteries up to once a year throughout the term of your protection plan. The average replacement cost of today's typical Lithium-Ion wireless phone battery is **\$69.99!**

Includes Parts and Labor

The RadioShack Service Plan coverage includes 100% parts, 100% labor, and 100% shipping costs for the entire term of the plan.

Includes Your Wireless Accessories

The RadioShack Service Plan extends to protect up to four accessories that you purchase with your phone.

Prorated

The RadioShack Service Plan can be canceled and a prorated refund issued at any time.

Repair or 48 Hour Replacement

With the RadioShack Repair Service Plan, the handset will be sent to our repair facility for repair. With the RadioShack Replacement Plan, you'll receive a replacement handset within 2 business days. Service plans do NOT cover abuse or liquid damage.

Convenience

You can get service by calling a simple 800 number. Your agreement is electronically listed.

Protection from Rising Cost of Repair

The technology that gives us the newest and greatest features, also drives the cost to service these items higher.

RadioShack Service Plan Costs Less than Most Repairs

Often a single repair during the coverage period can pay for the cost of the Service Plan.
